We believe...

#SCHOOLCANBEDIFFERENT

All children are unique and deserve an education that meets their individual learning needs so they can reach their full potential. We blend digital learning with regular, one-on-one and face-to-face instruction with an Oklahoma certified teacher. EPIC's free, competitive and high-quality education also ensures every student has the 21st century learning tools they need, such as laptops and wifi. Our dedicated teachers, principals and staff don't believe schools are entitled to students. Rather, Oklahoma students are entitled to a quality education. We know that school can, and should be different!

“Public school choice has allowed us to provide a safe environment for my child to learn without the exposure to bullying and other drama she faced in the local school classroom. She is being challenged educationally and is receiving a great education!”
